This is What Success Feels Like

At the end of June, we hosted our 6th Annual Summer Solstice Success Celebration, where we honored and rewarded individuals and families, who have overcome the challenges of homelessness. In addition, we recognized the skillful work our providers bring to their patients every day.

This month, we're taking a closer look at some of those incredible success stories, as well as highlighting the roles our providers and donors play in them.

Douglas' Story

Douglas began receiving suboxone treatments in 2013 to combat his heroin use disorder. Since then, he has been drug free.

He was recently presented with an award for housing after struggling with homelessness. In his interview, he discusses his journey, the power addiction has over its victims, and his love of music.

Meet Amy Sternhell, Psychiatric NP

Amy Sternhell has been with CFH for over 15 years. In that time she's helped countless patients experiencing depression, anxiety, and other mental health disorders.

In her interview, she discusses her work, why she loves it, and why she thinks mental health is so important - especially for those experiencing homelessness.
What Success Feels Like

"Success is opening your mailbox and seeing a utility bill bearing your name."
- M.A. Dennis

Mr. Dennis was the winner of this year’s Success Story writing contest. He also read his piece aloud, giving a powerful performance that you can watch right now!

Have You Seen Our New Look?

We recently completed a redesign and overhaul of our entire website. New features include:

- A revamped homepage, with clear links to all sub-pages,
- An all new interactive map, showing all our open access health centers and making them easier than ever to access,
- Redesigned pages that make navigating more user-friendly,
- News and Events pages designed to keep you up to date with everything CFH,
- And a remodeled donation page that makes giving easier than ever!
